

JINAN HONGYANG CNC MACHINERY CO., LTD

Shun Tong 5.5KW Water-cooled Woodworking Advertising Motor

	model:	WH125 5.5KW
	Dimensions:	Φ125
	Rotating speed:	24000RPM
	power:	5.5KW
	Voltage:	220v/380V
	frequency:	400HZ
	Bearing:	4 bearings
	cooling method:	Water cooling
	Chuck nut:	ER25
	Current:	/

1. Shun Tong 5.5kw water-cooled woodworking advertising motor should be used with the inverter with matched parameters. If these settings are not correct, this spindle motor will be burned.
2. Just like the use of any other [5.5 kw spindle motor](#) in this series, this water-cooled spindle should also be put into use only when the cooling circulation system of itself is working normally. It is strictly prohibited to use this water-cooled spindle motor without cooling water.
3. During the storage and transportation of the spindle motor, the state of the high-speed grease inside the bearing will change. The customers should run the motor at a relatively low speed before its first use.
